

## **DEVELOPMENT APPLICATION**

### **PDPLANPMTD-2025/054913**

**PROPOSAL:** Water Storage Tank (single Dwelling) (Retrospective)

**LOCATION:** 274 Acton Drive ACTON PARK TAS 7170

**RELEVANT PLANNING SCHEME:** Tasmanian Planning Scheme - Clarence

**ADVERTISING EXPIRY DATE:** 16/04/2026

The relevant plans and documents can be inspected at the Council offices, 38 Bligh Street, Rosny Park, during normal office hours until 16/04/2026. In addition to legislative requirements, plans and documents can also be viewed at [www.ccc.tas.gov.au](http://www.ccc.tas.gov.au) during these times.

Any person may make representations about the application to the Chief Executive Officer, by writing to PO Box 96, Rosny Park, 7018 or by electronic mail to [clarence@ccc.tas.gov.au](mailto:clarence@ccc.tas.gov.au). Representations must be received by Council on or before 16/04/2026.

To enable Council to contact you if necessary, would you please also include a day time contact number in any correspondence you may forward.

Any personal information submitted is covered by Council's privacy policy, available at [www.ccc.tas.gov.au](http://www.ccc.tas.gov.au) or at the Council offices.

## Application for Development / Use or Subdivision

---

Use this form to obtain planning approval for developing or using land, including subdividing it into smaller lots or lot consolidation.

Proposal: **Water tank**

---

Location: **274 Acton Drive, Acton Park 7170**

**Personal Information Removed**

Is the property on the Tasmanian Heritage Register? Yes  No

If yes, we recommend you discuss your proposal with Heritage Tasmania prior to lodgement as exemptions may apply which may save you time on your proposal.

If you had pre-application discussions with City of Clarence, please provide planner's name:

**Bonita Pienaar**

Current use of site: **Residential**

Does the proposal involve land administered or owned by the Crown or Council? Yes  No

#### Declaration

- I have read the Certificate of Title and Schedule of Easements for the land and am satisfied that this application is not prevented by any restrictions, easements or covenants.
- I authorise the provision of a copy of any documents relating to this application to any person for the purposes of assessment or public consultation. I agree to arrange for the permission of the copyright owner of any part of this application to be obtained. I have arranged permission for Council's representatives to enter the land to assess this application
- I declare that, in accordance with Section 52 of the Land Use Planning and Approvals Act 1993, that I have notified the owner of the intention to make this application. Where the subject property is owned or controlled by Council or the Crown, their signed consent is attached.
- I declare that the information in this declaration is true and correct.

#### Acknowledgement

- I acknowledge that the documentation submitted in support of my application will become a public record held by Council and may be reproduced by Council in both electronic and hard copy format in order to facilitate the assessment process; for display purposes during public consultation; and to fulfil its statutory obligations. I further acknowledge that following determination of my application, Council will store documentation relating to my application in electronic format only.

Please refer to the development/use and subdivision checklist on the following pages to determine what documentation must be submitted with your application.

- Location and capacity of any existing services or easements on/to the site.
  - Existing pedestrian and vehicle access to the site.
  - Location of existing and proposed buildings on the site.
  - Location of existing adjoining properties, adjacent buildings and their uses.
  - Any natural hazards that may affect use or development on the site.
  - Proposed roads, driveways, car parking areas and footpaths within the site.
  - Any proposed open space, communal space, or facilities on the site.
  - Main utility service connection points and easements.
  - Proposed subdivision lot boundaries.
- Where it is proposed to erect buildings, detailed plans with dimensions at a scale of 1:100 or 1:200 showing:
- Internal layout of each building on the site.
  - Private open space for each dwelling.
  - External storage spaces.
  - Car parking space location and layout.
  - Major elevations of every building to be erected.
  - Shadow diagrams of the proposed buildings and adjacent structures demonstrating the extent of shading of adjacent private open spaces and external windows of buildings on adjacent sites.
  - Relationship of the elevations to natural ground level, showing any proposed cut or fill.
  - Materials and colours to be used on rooves and external walls.
- Where it is proposed to erect buildings, a plan of the proposed landscaping showing:
- Planting concepts.
  - Paving materials and drainage treatments and lighting for vehicle areas and footpaths.
  - Plantings proposed for screening from adjacent sites or public places.
- Any additional reports, plans or other information required by the relevant zone or code.

---

This list is not comprehensive for all possible situations. If you require further information about what may be required as part of your application documentation, please contact City of Clarence Planning team on (03) 6217 9550.

## Development/use or subdivision checklist

---

### Mandatory Documents

This information is required for the application to be valid. We are unable to proceed with an application without these documents.

---

- Details of the location of the proposed use or development.
- A copy of the current Certificate of Title, Sealed Plan, Plan or Diagram and Schedule of Easements and other restrictions for each parcel of land on which the use or development is proposed.
- Full description of the proposed use or development.
- Description of the proposed operation. May include where appropriate: staff/student/customer numbers; operating hours; truck movements; and loading/unloading requirements; waste generation and disposal; equipment used; pollution, including noise, fumes, smoke or vibration and mitigation/management measures.
- Declaration the owner has been notified if the applicant is not the owner.
- Crown or Council consent (if publically-owned land).
- Any reports, plans or other information required by the relevant zone or code.
- Fees prescribed by the City of Clarence.

Application fees (please phone 03 6217 9550 to determine what fees apply). An invoice will be emailed upon lodgement.

---

### Additional Documents

In addition to the mandatory information required above, Council may, to enable it to consider an application, request further information it considers necessary to ensure that the proposed use or development will comply with any relevant standards and purpose statements in the zone, codes or specific area plan, applicable to the use or development.

---

- Site analysis and site plan, including where relevant:
    - Existing and proposed use(s) on site.
    - Boundaries and dimensions of the site.
    - Topography, including contours showing AHD levels and major site features.
    - Natural drainage lines, watercourses and wetlands on or adjacent to the site.
    - Soil type.
    - Vegetation types and distribution, and trees and vegetation to be removed.
-

**EASEMENTS AND PROFITS**

Each lot on the plan is together with:-

- (1) such rights of drainage over the drainage easements shown on the plan (if any) as may be necessary to drain the stormwater and other surplus water from such lot; and
- (2) any easements or profits a prendre described hereunder.

Each lot on the plan is subject to:-

- (1) such rights of drainage over the drainage easements shown on the plan (if any) as passing through such lot as may be necessary to drain the stormwater and other surplus water from any other lot on the plan; and
- (2) any easements or profits a prendre described hereunder.

The direction of the flow of water through the drainage easements shown on the plan is indicated by arrows.

**EASEMENTS**

**Lot 1 is together with** rights of carriageway and pipeline easements over the Right of Way “B” (Private) Variable Width and Pipeline Easement, the Right of Way “C” (Private) Variable Width and Pipeline Easement and the Right of Way “F” (Private) 10.00 wide and Pipeline Easement shown on the Plan.

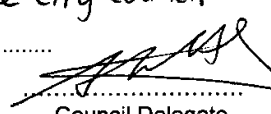

**Lot 1 is together with** rights of carriageway and pipeline easements over the Right of Way “A” and Pipeline Easement “G” and the Right of Way “D” and Pipeline Easement “J” described in folio of the Register Volume 197944 Folio 1 and shown on Plan 197977.

**Lot 1 is subject to** rights of carriageway and pipeline easements (appurtenant to Lot 2 on the Plan) over the Right of Way “C” (Private) Variable Width and Pipeline Easement and the Right of Way “E” (Private) 10.00 wide and Pipeline Easement shown passing through Lot 1.

**Lot 1 is subject to** rights of carriageway and pipeline easements (appurtenant to Lots 1 and 2 on Sealed Plan 31871) over the Rights of Way “A” (Private) and Pipeline Easement and the Right of Way “D” (Private) and Pipeline Easement as defined and shown on Sealed Plan 31871.

**COVENANTS**

Lots 1 and 2 on the Plan are each affected by restrictive covenants set forth in Sealed Plans 31871 and 14776.

**DEFINITION**

“**Pipeline Easement**” means a right for every person who is at any time entitled to an estate or interest in possession in the Dominant Tenement or any part thereof with which the right shall be capable of enjoyment in common with the owners of Lots 1, 2 and 3 for the purpose thereof to construct lay and maintain pipes forever in the strips of land marked “Pipeline Easement” and to pump water through such pipes and the right for every such person and his surveyors and workmen from time to time and at all times hereafter if he or they should think fit to enter upon the said strips of land and to inspect repair cleanse and amend any such pipe without doing any unnecessary damage to the land.

**FENCING PROVISION**

The Vendor Denise Frances Roberts shall not be required to fence any of the Lots shown on the Plan.

Re: 274 Acton Drive, Acton Park – Water Storage Tank Location Justification

Dear Sir/Madam,

I write in response to the request for further information under Clause 22.4.4 – Landscape Protection, specifically in relation to Performance Criteria P2.1 and P2.2.

This correspondence provides justification as to why the nominated location for the water storage tank represents the most appropriate and, in practical terms, the only suitable location on the site.

### **1. Elevation and Functional Requirements**

The selected location is positioned at an elevation that allows the tank to gravity feed the dwelling and associated fire-fighting infrastructure. This is a critical functional requirement of the development, ensuring reliable water pressure for both domestic use and bushfire response without reliance on mechanical pumping systems.

Alternative locations on the site were assessed; however, lower elevations would necessitate pumped systems, reducing reliability in emergency scenarios and increasing infrastructure requirements and ongoing operational risk.

### **2. Minimisation of Excavation and Site Disturbance**

The chosen location requires minimal excavation and earthworks due to the natural topography of the site. Positioning the tank elsewhere would require substantial cut-and-fill works, resulting in increased disturbance to the landform and a greater visual and environmental impact.

Accordingly, the proposed location achieves a materially lower level of site disturbance and is consistent with the intent of minimising impacts on landscape values.

# **BALCOMBE.**

ALEC BALCOMBE | 0488 585 437 | LAUDERDALE | TASMANIA | 7021

### **3. Fire Vehicle Access and Operational Safety**

The tank is located in proximity to the property boundary to enable practical and compliant access for fire-fighting vehicles. This ensures that emergency services can readily connect to and utilise the water supply in the event of a bushfire.

Relocating the tank further within the site would compromise access, potentially requiring additional access tracks or hardstand areas, which would in turn increase vegetation removal and landscape impact.

### **4. Retention of Existing Vegetation**

Importantly, the selected location avoids the need for removal of established vegetation. Alternative locations would require clearing of native vegetation to accommodate construction and access, which would result in a greater impact on the site's landscape values.

### **5. Consideration of Alternative Locations**

Multiple alternative siting options were considered across the property. Each was found to be less suitable due to one or more of the following constraints:

- Insufficient elevation to achieve gravity-fed supply
- Increased excavation and landform modification
- Reduced or non-compliant fire vehicle access
- Requirement for substantial vegetation clearing

On this basis, no other location achieves the same balance of functional performance and minimised environmental and visual impact.

### **Conclusion**

The proposed tank location has been carefully selected to minimise impacts on the landscape while meeting essential operational and safety requirements. It represents the least intrusive and most appropriate outcome for the site when considered against the objectives of Clause 22.4.4 and Performance Criteria P2.1 and P2.2.

Should you require any further information or clarification, please do not hesitate to contact me.

Yours sincerely,  
Alec Balcombe.

# Development Description

274 Acton Drive, Acton Park 7170

274 Acton Drive is situated on top of the hill, with one road in and out. The ~22 acre block is surrounded in dry bushland, with a significant fire risk. In the below image, I have highlighted where experts consider high (red) and moderate (amber) fire risk is likely to come from.

As a precaution, we have developed a comprehensive fire management strategy and as part that strategy we have positioned a 215k litre water storage tank in the NW (most at risk) corner of the block. The water tank is engineered and installed to the required specifications as per the attached Form 55 from the installer.

The location of the water tank was chosen specifically for its access to both the high risk areas. On the western boundary of the property there is a fire trail that services all the surrounding land on the northern and western side of the hill, as below.

The northern boundary that we share with 270 Acton Drive, is mostly in-accessible other than from our property, and a lot of this land is dense, dry and under maintained bushland on our neighbours part. The land beyond this image is steep with dry vegetation, we have cleared the top section to enable fire crew access to fight oncoming fire with immediate access to water.

We have also installed a fire spigot with required access for fire fighting equipment to service the area. As part of this installation we have also expanded the road infrastructure to enable maneuverability of large vehicles in the event of a fire.

The water tank was installed after a conversation with the council about permit requirements to which I understood this works to be low risk and therefore permit exempt. Unfortunately due to specific zoning requirements we are required to make a retrospective application to request an exemption.

I understand the requirements of Landscape conservation to be aimed at maintaining the authenticity and natural aspect of the bushland, and we believe we've been sympathetic to that. The tank is positioned discretely and out of site of any neighbouring buildings, roads (other than fire trails) or walkways. It is painted in "woodland grey" which was chosen to make the structure recede into the bushland visually.

That said, should we need to introduce vegetation to further disguise the tank in its current location, we would be open to doing so.

If any queries or further information is required please call me on [REDACTED]

Thanks!
